## Higher Education

*Procurement is not just about saving money—it's also about systems and workflows. BuyBoard contracts already have been through a competitive procurement process, saving members the time and cost of preparing RFPs and bids. BuyBoard's request for quotes (RFQ) functionality allows members to request pricing on volume needs from multiple vendors. Participating institutions can focus on strategic tasks and benefit from negotiated volume discounts.*

## Municipalities & Counties

*Combining the purchase power of local governments provides members—big and small—the leverage to achieve competitive pricing on products, equipment, and services. With a variety of products and vendors to choose from both national and local, members will find almost everything needed to support their organization. Purchasing through BuyBoard means your agency is helping to support the statewide organizations that support you.*
